

## Instructions for Quiz/Test Corrections

You may correct your quiz to earn back half of the points you missed on a test or quiz. In order to receive these points, you must do ALL of the following.

- Corrections must be done on all missed problems.
- Half credit will be given for missed Quiz/Test problems but not for missed Entry Task Quiz problems.
- Work must be done on a separate piece of paper and attached to the original quiz/test. Do this separately from any other homework. Do not make any changes to the original quiz/test.
- Rework each incorrect problem correctly. For each problem you correct, write a sentence explaining your mathematical error and how you corrected it in a format saying what you did and what you should have done (see the following examples):
  - “I left the inequality sign the same when I divided by a negative number when I should have reversed the sign.”
  - “I subtracted 5 from both sides when I needed to add 5 to both sides”.
- If you cannot find where you made your mistake – discuss with a peer, a family member or see me during lunch recess.
- Must be turned in on-time for any additional credit.

Keep this instruction sheet for future reference.
